MY DENTIST OPENS NEW OFFICE IN ADA

OKLAHOMA CITY, OK – The Oklahoma City-based family of dental practices, *My Dentist*, has opened a new office in Ada, Oklahoma. Community resident, Dr. Stephanie Meeks, will serve as lead provider of the dental team located at 1430 Lonnie Abbott Blvd.

Founded in 1983, *My Dentist* is the leader in Complete Care Dentistry, with locations throughout the metropolitan areas of Oklahoma City, Tulsa and Kansas City. Additional offices serve communities such as Muskogee, Duncan, Chickasha, Enid and Shawnee.

“Ada is a perfect community for our new office and we take great pride in supporting economic growth and job creation throughout Oklahoma,” commented Dr Pat Steffen, *My Dentist* CEO and Founder. “We continue to proudly serve thousands of Oklahomans by offering them the absolute best in oral healthcare.”

Dr. Stephanie Meeks graduated from the University of Oklahoma College of Dentistry in Norman, OK, and is a resident of Ada. “I left Ada to finish school at OU and I could not wait to get back and provide dental care to the community I know and love,” Dr. Meeks stated.

“I’m both excited and honored to be part of *My Dentist*’s new location in Ada,” Dr. Meeks added. “Ada is a wonderful community and I look forward to building personal relationships with all of my patients and getting to know them and all about their lives. I truly love providing dental care to all ages, especially children.”

My Dentist provides complete care dentistry for the entire family, including pediatric and sedation patients, as well as specialty services such as Orthodontics, Endodontics and Oral Surgery. They accept all forms of dental insurance, including SoonerCare, and offer 0% interest financing to qualified patients, as needed.

“Our team of qualified dentists, hygienists and support staff are committed to providing quality, affordable dental care to all patients. If you are currently in need of exceptional dental services, I invite you to visit any of our 26 convenient locations for a free consultation,” Dr. Steffen said.
